1. Paul Mooney, Assistant Tribal Attorney/Sarah Smith, CEO – Non-Disclosure Agreement

M. Adjournment:
Tribal Council Updates:
February 14 - 20, 2019

- I completed my review and analysis of the Keno player’s points accumulation. A change to reduce the points accumulated by half was instituted a number of years ago based on the play at poker games. Poker is considered a game of skill and player’s decisions can influence the outcome. Keno, on the other hand, isn’t a game of skill and operates much like a regular slot machine. I researched the topic, analyzed the play on our machines, both Keno and Poker, and determined that the change on the Keno machines wasn’t justified. I have submitted a written request to have the point accumulation value increased on the Keno machines.

- The Baraga project is still on schedule to be completed the end of the month. The leaking roof is being addressed regularly and cost estimates for a permanent solution are coming in. There is the potential to have the problem corrected during the winter months and once I have the estimates I will bring them forward. Area 30 is really starting to take shape and is looking great. The new bar is being installed along with the features and it is amazing – as customers walk through the M38 entrance they will be wowed by its beauty. New bar stools were ordered yesterday to complement the new bar. We will need to look at replacing slot seating as well, but I’m waiting to see where we are with the contingency funding.

- We experienced additional issues with the new HVAC system. The unit serving Area 30 was put into service but the exhaust vents iced up due to their location outside between the casino and Pressbox. The engineers and Trane reps immediately developed a solution which is to install vent stacks upward. The stacks will likely be installed yet this week.

- Mike Needham, Facilities Director and Jeremy Ouellette, Marquette Maintenance Supervisor, attended a Marquette project scheduling meeting. That project continues to be slated for completion late November to early December. Phase II of the interior work of the existing space at the Marquette casino is underway. The space has been walled off and will become the main set of restrooms for the new casino. Slot machines are being moved around the floor and we are hopeful that we will be able to keep them all in play.

- The Lucky 7’s renovations are well underway. During the closure a breakfast buffet is being offered by Lucky 7’s and they are also continuing to provide the Senior Day meal. I have made the Pressbox non-smoking during the breakfast service for guests to better enjoy their meal. In just a few short days, the contractor was able to strip and prepare the walls for painting, create several walls to better incorporate the waitess station and checkout areas, paint the ceiling grid and replace the tiles and Jason Dunn has completed electrical work for the new lighting. The windows will be replaced in the next couple of days and the floors prepared for the new flooring. I had a good meeting with John Gervais on Tuesday. He introduced us to his GM, who oversees all of his restaurants, and discussed his plans going forward. He has Michelle managing the front of house to ensure service standards are being met and is incorporating a kitchen manager on each shift to ensure the quality of food meets his requirements. He has provided his initial payment toward the renovations and will provide the remainder upon completion. I provided John with our expectations and made it clear that our customers view the restaurant, the food and service it provides, as the Ojibwa Casinos. He was very receptive and completely understands that his success or failure impacts us. He will be working on the menu during the renovations and indicated we’d be some great changes – not price or portion though!

FROM: Sarah L. Smith, CEO
RE: Monthly Report
DATE: February 21, 2019

1. **MISSION STATEMENT**: To provide exceptional services for our membership; a safe, positive work environment for employees and sustained economic prosperity, while protecting our sovereignty and preserving our culture and natural resources for future generations.

**VISION STATEMENT**: A Tribe that preserves the Anishinaabe culture, advances economic diversity, provides opportunities to enhance independence, and promotes the health and well-being of our Community.

2. **Updates**: There were several questions raised regarding interpretation of closure for employee timecards including bereavement leave and out of town sick leave status and on call employees scheduled to work and not able to work due to closure. Repairs are necessary at the library that were not budgeted and future repairs necessary.

3. **Meetings/Conferences**: Met with Natural Resources Department to prepare summary that is coming forth during closed session. I attended a progress meeting with the Housing Department regarding the mold grant. The conference call was later held that day with the HUD office to give them an update on the Tribe’s progress. I also attended Tribal Government class and spoke on Tribal Administration at NMU.

4. **Employee Changes**: There are no direct reporting changes. The government currently has 298 employees, with 219 Native American. This includes 2 hires and 2 separations. This list is being emailed to you.

5. **Statistical Data/Case Load Information**: I met housing regarding progress of the mold grant repairs. We also had a conference call regarding the progress. I reviewed employee requests regarding promotions and position descriptions. I did an initial review of 3 determinations regarding some complaints.

6. **Financial Update**: Award for DHHS ACF Child Care and Development Fund was received in the amount of $231,558. This was more than budgeted for the Pre-Primary program ($100,252).
