M. Adjournment:
Tribal Council Updates:
January 18 – February 6, 2019

- Mike Needham is getting all of the materials and equipment needed to complete the Lucky 7’s renovation. The contractor is scheduled to begin on February 18 and be completed by March 2 at the latest. The restaurant will close during the renovation and Doug has been made aware so they can deal with their staff. Because the hotel has guests and the Pressbox doesn’t provide a food outlet until 11 a.m., Doug will ensure a breakfast buffet is setup in the Pressbox from 7 a.m. through 11 a.m. when the Pressbox opens. The restaurant kitchen isn’t undergoing renovations so they will still be able to use it to prepare food for the breakfast needs as well as our Senior Day meal. The completion of the restaurant renovations will coincide with the casino completion.

- The Baraga casino project is still on schedule to be completed the end of February with move in and set up taking place the first week in March. It is currently planned that area 30 will open on Friday, March 8th.

- We will begin pricing out the cost to renovate hotel rooms. We are also looking at trimming costs by reusing some of the furniture in the rooms that are not in need of replacing. Once we have the cost of completing one room, we’ll have a better handle on the number of rooms we can afford to do. The timing will also work well in that we’ll have a better idea as to the amount of contingency funds from the casino project that might be available.

- Regarding the project costs for Baraga, I met with Gundlach’s project manager for Baraga. Based on work that was requested outside the scope of the GMP, contingency funds may be needed to cover those costs. Since the project is planned to be completed prior to the original date used in preparing the GMP, we are likely to see some cost savings which would work toward balancing things out. We will know more in about a month and I’ll provide an update at that time.

- I participated in a meeting with Chris, Debbie Picciano and Hannah to work through some outstanding issues and to have consistent processes between the government and casinos in place related to processing non-licenses pre-employment backgrounds. Barb had been working with the commission staff on them for the casinos, but felt having them flow through HR makes more sense now. Debbie has agreed to do them initially and we’ll evaluate down the road to see if whether or not it’s too time consuming.

- I’m continuing to work on the organizational structure. I have a draft of what I believe would work best for the organization as well as myself in managing the businesses effectively.

- I met with Hosh and Lynn to have our initial discussion regarding the WICS. We have decided to restart the WICS Committee and have identified key positions that will participate in moving changes through the approval process.

- You may have either heard from staff, customers or been in the Baraga Casino when the fire alarm has gone off. The alarms have been tripping for some time now with no apparent cause. I met with Ron approached me and requested the ability to contact the original company to get cost estimates on identifying and fixing the problem of which he is moving forward with.

- The Roulette table has been added back to the floor in Baraga. The decision was made based on an analysis of its profitability and the fact that we have sufficient dealers on staff now to work it so additional labor isn’t needed.

-
• We have had a number of slips/falls between the two casinos. In Baraga we have addressed them by making changes to ensure they are mitigated. We have blocked the stairway between area 10 & 20 temporarily and turned the Kiosk. Rugs have been removed to prevent tripping. In Marquette we have developed a schedule to ensure the entrance and parking lot are checked, shoveled and or plowed regularly. Responsibility for doing so has been made clear so there isn’t any confusion on which department is taking care of it – if help is needed to keep up a request will be made to the security department.

• A political post was inadvertently and non-malevolently shared to the Ojibwa Casinos Facebook page. I have dealt with the situation based on policy and provided written communication making it clear what the intent of our page is.

• I attended and participated in a leadership training that was conducted for Marquette Casino supervisors and managers. I found the information presented by the HR Department to be useful and supportive of the mission statement and core values developed through the Service Culture training. The training also included an overview of the employee evaluation system which will be rolled out the beginning of March. It provides new employees with a monthly review through their Introductory Period, quarterly and annually thereafter.

• I am continuing to work on the Temp Employee Service concept. I have met with Danielle to discuss the options available through the Tribe’s ordinances. I will meet with the individuals I identified in my concept paper to further discuss setting up the organization.

• The shuttle buses that were inspected last week turned out not to be worthy of purchasing. They would have been costly to get up to standard and may have nickel and dimed us.

• The Marquette Casino project topping out ceremony took place yesterday. There were a number of employees, contractors and the media present. I have several videos that I’m trying to send but the file is too big for email, so I’ll get with IT to see how to get them to you.
