Tribal Council Updates:
February 28 – March 6, 2019

• Just a reminder that Area 30 of the Baraga casino will be finished as planned and the internal renovation celebration will begin at 4:30 p.m. today. We were also given the nod by the Gaming Commission to run a slot tournament for attendees with prizes supplied by vendors. You, the Gaming Commission and their staff, our Baraga Casino employees, project contractors and those who have been involved in the project design and implementation have been invited. The area could be open to the public as early as this evening; if not we definitely should be open for business sometime tomorrow.

• Just after midnight on Saturday, March 2, the Oasis system went down causing employees to perform manual operations for guests cashing out. The problem lasted for about four hours.

• I spoke with Hosh following my report last week and after receiving a second bid for the casino roof repairs. In my previous report I indicated I would be bringing the bids forward for your consideration of approval. After more thought, I suggested to Hosh that instead of investing from current casino cash flow for the work, I could request that Gundlach utilize contingency funds for the projects. A balance of around $600,000 between the two projects exists following the most recent change orders. If we used contingency for this work, we could potentially have to invest the cost of the repairs near the end of the Marquette project construction. So far, Gundlach has been frugal with use of the contingency funds and remain confident that the balance should be sufficient. I did contact Gundlach to discuss the option and they are fine with it. If you prefer to utilize funds from current cash flow, I will prepare the documents and present at your next meeting. If you are fine with the option of using contingency funds, the work will be authorized and plans made to get the work completed. There’s about a 4 week lead time for the roof material so we’ll have to continue to keep on top of removing ice build up to ensure leaking is mitigated and the investment within the casino protected.

• The Lucky 7’s renovations were completed and the restaurant opened for regular business this past Saturday. Comments have been positive and Lucky’s staff are excited with the new work environment.
