[New Business:]

2. Becky Tussing – PowerPoint Presentation on Prescription Drugs

Becky believes the reason prescription drug abuse is so prevalent on the reservation is that they are easy to acquire and people rationalize that prescription medications are safe.

The Council inquired if our doctors are contributing to the problem?

Becky stated that pain medications are the top prescribed drugs. The Health Department staff meets every two weeks to do case management on prescription drug abuse issues and they also do a pain management committee review. Becky doesn't think that our doctors are the culprit in the large amount of prescriptions that are in Baraga County. She thinks they may be part of the problem, but believes a large amount of our population is severely addicted. Baraga County Family Practice is discharging the patients that are abusing the prescription drug policy and any of those patients that are Native American are coming back to the Tribal Health Department.

President Swartz stated that he believes the providers and the pharmacists are the ones who can have an immediate impact on the problem.

Becky and the Drug Task Force plan to do a community presentation and possibly another parental awareness dinner.

The Council thanked Becky for her presentation and a job well done.
Break: 2:09 – 2:22 p.m.
